

CRANE MATERIAL BASKET

Lift and stage materials safely at elevation with the Star Industries Crane Material Basket. Designed for commercial construction, industrial facilities, and infrastructure projects, this basket provides a reliable solution for transporting palletized or loose materials using mobile, tower, or overhead cranes.

- ➔ 4-point top pick integrated lifting lugs support a balanced 4-point lift
- ➔ Working Load Limit (WLL) 4,000 lbs (most popular capacity)
- ➔ Complies with OSHA 1926 Subpart H, aligns with ASME B30.20 & BTH-1 standards

FEATURES

- ➔ Constructed from ASTM A500 Grade B structural steel tubing with full-penetration structural welds.
- ➔ Heavy-duty floor available in 3/16" steel plate or expanded metal, with steel mesh side panels for visibility & containment.

Standard Safety Features: Safety chain door, spring-loaded or chain gate, welded tie-down points, and floor drain holes.

Rigging Requirements: Designed for use with chain or wire rope slings in a 4-point top pick configuration. Recommended sling angle is 60° or greater, with evenly distributed loads required.
