

AUGER STUMP PLANER

Turn your auger drive into a powerful stump removal tool with the Star Industries 10" Stump Planer. Designed to drill, cut, and mulch tree stumps, this auger attachment provides a fast, efficient alternative to traditional stump grinding methods. Three sharpenable tool steel blades deliver aggressive cutting performance, while the replaceable spiral pilot helps guide the planer through the stump for smooth, controlled operation. Ideal for landscaping, land clearing, property maintenance, and fence-line cleanup.

- Converts compatible auger drives into an effective stump removal solution
- Cuts and mulches stumps up to 18" deep
- Ideal for landscaping, land clearing, and property maintenance

FEATURES

- Three sharpenable tool steel blades for aggressive cutting performance
- Replaceable spiral pilot and pilot blades for improved durability and serviceability
- 10" cutting diameter for efficient stump removal
- 18" cutting depth reaches below ground level for a cleaner finish
