

MINI EXCAVATOR EXTREME DUTY BRUSH CUTTER

Clear thick brush, overgrowth, and small trees with the Star Industries Mini Excavator Extreme Duty Brush Cutter. Built for excavators weighing 12,000–20,000 lbs., this powerful attachment is designed to cut small trees while maintaining excellent maneuverability in tight or hard-to-reach areas. Durable AR400 steel blades provide long-lasting performance, and multiple motor and gearbox options ensure optimal torque and blade speed for your machine. Ideal for fence lines, right-of-way maintenance, land clearing, and property management.

- ➔ Cuts brush and trees up to 3" in diameter
- ➔ Designed for excavators weighing 12,000–20,000 lbs.
- ➔ Multiple motor and gearbox options available

FEATURES

- ➔ Heavy-duty AR400 steel blades for maximum durability and cutting performance
- ➔ Compact design allows operation in tight spaces and confined work areas
- ➔ Ideal for land clearing, vegetation management, fence lines, and right-of-way maintenance
