

# SKID STEER EXTREME DUTY BOOM POLE

Lift, carry, and position heavy materials with confidence using the Star Industries Skid Steer Extreme Duty Boom Pole. Built from rugged 4" x 4" x 1/4" steel tubing, this attachment is engineered for demanding lifting applications where strength and reliability are critical. With a 4,000 lb. carrying capacity and reinforced frame construction, it provides the reach needed to move trusses, beams, logs, equipment, and other oversized loads around the jobsite, farm, or property.

- 4,000 lb. carrying capacity for heavy lifting applications
- Ideal for moving trusses, beams, logs, and oversized materials
- Reinforced steel frame built for demanding jobsite conditions

## FEATURES

- Heavy-duty frame constructed from 4" x 4" x 1/4" steel tubing
- Reinforced design provides strength and long-term durability
- 64" height offers additional reach for lifting and positioning loads
- Compact 46" width and 18" depth for maneuverability
