

SKID STEER LAND LEVELER

Achieve smooth, professional-grade surfaces with the Star Industries Skid Steer Land Leveler. Designed for grading, leveling, and backfilling, this attachment excels at maintaining gravel driveways, dirt roads, and other finished surfaces. Ideal for precision leveling applications, the Land Leveler is engineered to smooth and refine terrain rather than bulk material movement.

- ➔ Ideal for leveling dirt roads, gravel driveways, and finished surfaces
- ➔ Available in 72" and 84" widths
- ➔ Replaceable cutting edges extend service life and reduce maintenance

FEATURES

- ➔ Low-profile frame provides excellent visibility and maneuverability
- ➔ Compact 25" height and 43" length for easy operation in tight areas
- ➔ Replaceable front cutting edge for long-term durability
